To Whom It May Concern,

**RE: Letter of Recommendation**

It is with pleasure that I recommend **Joel Wong Jun Qin (Joel)** (Senior Programmer, Gameka) for a position within your establishment.

Joel is part of my team in which I hold the position of Head of Tech in Gameka. Joel was the Programmer for a few games and projects namely Lazy Fish, Kluno Hero Battle, Nettworth (a financial literacy game for a client), an application for a tertiary education institution, and other game prototypes for potential clients.

I have enjoyed my time working with Joel as he is focused on the work he does and able to adapt to new technologies. As one of the senior programmers in the team, Joel has managed to single handedly code for games / projects assigned to him. He has a keen interest in prototyping games and have developed a few mini games on his own, whether it's at work or at Game Jams that he has participated. His active participation in Game Jams shows that Joel is constantly trying to upskill and challenge himself in terms of his programming skills.

He has contributed immensely to the Tech Team and I believe he will be an asset to any company that he will be working for in the future.

I am thus happy to give him my wholehearted endorsement for his future endeavors. Please feel free to contact me for any further clarifications.

Thank you.

Yours sincerely,  
Gameka Sdn Bhd
